

# LUBRANIL® RN 20

## TECHNICAL INFORMATION

### Application:

LUBRANIL® RN 20 is a water based dispersion for pasty plasters and waterborne dispersion paints. LUBRANIL® RN 20 is very suitable for polymeric, silicate and silicone based systems.

### Properties and advantages:

- Prolongs the open time
- Improves the elasticity of the coating
- Prevents from cracks and rents
- Plastification
- Improves the workability of the plaster
- Assists to reduce pinholes
- Free of any solvents, VOC- and SVOC-free

### Technical data:

Appearance:	white, liquid
Active content:	20% ± 1%
Ionogenicity:	non-ionic
pH-value:	7,5 ± 1
Dilution:	in water in any ratio

### Recommended dosage:

LUBRANIL® RN 20 is used in quantities of 0,4% - 2,0%, as it is, based on total formula. It should be incorporated together with the binder.

**Before use the product should be stirred!**

### Transport and storage:

Our dispersions are sensitive to frost!  
To be stored and transported between + 5 °C and + 35 °C.  
Maximum storage time 6 months in originally closed packaging.

### Packaging:

Drums with 150 kg  
Containers with about 1.000 kg
